

LINOLEUMS

Ask Your Wife

about the care of the kitchen. Which bothers her most, "doing the dishes" or "scrubbing the floor"? And then consider a bright, cheerful, "crackless" floor that is even easier to clean than washing the dishes.

Linoleum

will make a bright, inviting room out of a dull, cheerless kitchen—and will reduce the unpleasant work of scrubbing by half. Ordinarily you just use a mop on linoleum, you know.

Send your wife in to-day to pick out the pattern; she'll like our assortment

Hooker & Co.'s Linoleum wears well and its cost is low. It makes the kind of kitchen your wife should have.

Have your suit, gown and dress made new for the spring and summer by my French dry cleaning process. It's time to look 'em up. What's the use of discarding them, when my French dry cleaning will make them as good as when you first bought them? It means money in your pocket and neatness in your dress. An informal report received by the aldermanic fire committee brings out in bolder relief the causes responsible for the accident to the horse-drawn chemical truck when the department was responding to an alarm for the Spaulding street fire Tuesday noon. The findings of the chairman do not indicate that the trouble started after the truck left the station, as was officially reported at first, but that the failure of the driver to guide the horses was due to negligence in the matter of harnessing the pair assigned to the second chemical combination. The committee head is quoted as saying that the horses were munching at their noonday portion of oats when the alarm was registered. In the rush to get the apparatus out of the station, according to the unofficial findings of the committee, the bits were not attached to their proper place in the harness, in consequence of which the horses swung into the street with the bits dangling near the collars. Efforts to guide the animals were futile, with the result that when the truck headed for a pole across the street, the horses could not be curbed sufficiently to avert the collision that followed.

Did You Know That the Best Oleomargarine

comes from the churn a cream white, the same as natural butter? If we sell CERTIFIED artificially colored the same as creamery butter, the government requires a tax of 10c per pound. To save YOU this tax, we furnish, free of charge, with every pound, pure vegetable coloring matter, the same as used by the manufacturers of the most expensive butter, so that you can color it in your own home to any shade desired—very simple and easy to do—requires about two minutes to color a pound. Allow the oleomargarine to become soft (do not heat over fire), pour the contents of a capsule over same, knead same as you would dough.

When WILSON'S CERTIFIED oleomargarine is properly colored, it is difficult indeed to detect it from the highest quality of fresh creamery butter. Try it, and if you are not satisfied we will cheerfully refund your money.
